Prevedere Global Intelligence Cloud

Prevedere Global Intelligence Cloud

Millions of external data signals and indicators

The Prevedere Global Intelligence Cloud is an extensive repository containing thousands of external data sources. This global data includes macroeconomic, industry, trade, supply chain, behavioral, government and other indicators that form the basis for Advanced Predictive Planning.

Prevedere collates, cleanses, indexes, and maintains these data sources, many of which will be correlated to be leading and lagging indicators of customers' business.

Data sources include

- NOAA
- eia
- INTERNATIONAL TRADE
- DEPARTMENT OF STATE
- UnionPay
- WORLD BANK GROUP
- bea Bureau of Economic Analysis
- Office for National Statistics
- USDA
- Statistics Canada
- OECD
- Google Trends
- eurostat
- Zillow
- BUREAU OF LABOR STATISTICS
- United States Census Bureau

Go-to source for real world data

Say goodbye to hours-long Internet searches, questionable sources and incomplete data.

With the Prevedere Global Intelligence Cloud, companies get a comprehensive set of external leading indicators that are:

Analysis-ready	Clean, current and well-formatted
Context-rich	Tagged with industry, geography and more
Proven	Validated in 1,000s of predictive models
AI-powered	Made more relevant with machine learning
Exclusive	From unique or hard-to-access sources

Companies that leverage the predictive value of external indicators have a market value two to three times higher than those that do not. The Prevedere Global Intelligence Cloud makes it easier than ever to find and use data from outside an organization's own four walls.

Extend the value of business planning with indicators

Gain new insights

Make smarter business decisions, informed by real world trends and performance drivers

Empower the enterprise

Advance planning initiatives in every department, from the CEO to operations

Save valuable time

Quickly access and update the right data to accelerate time-to-value for analytics projects

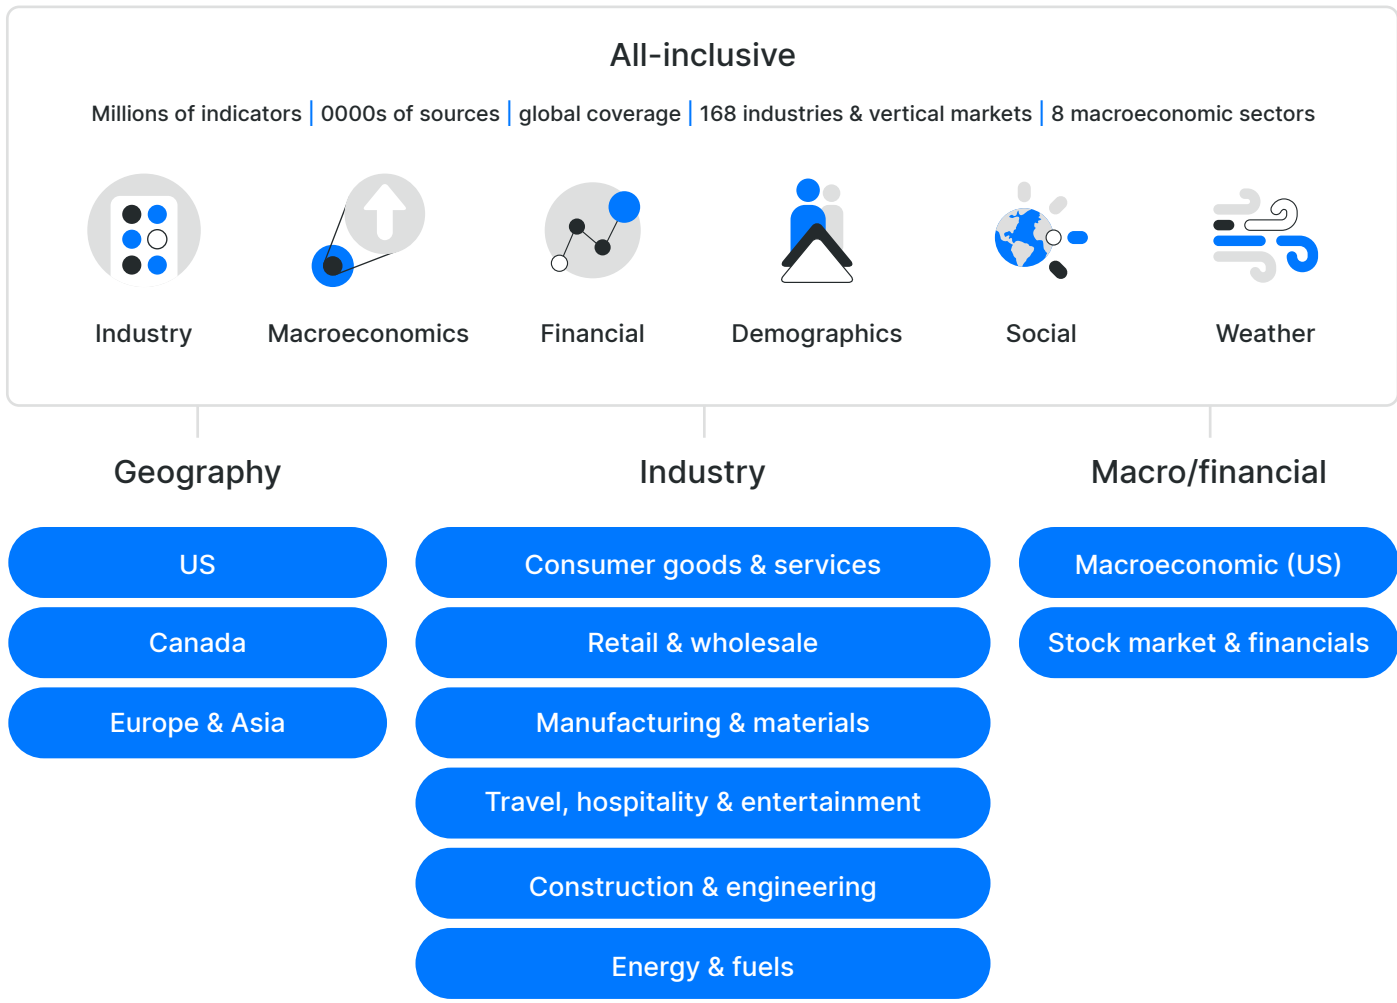

Holistic data sourcing

Include internal and external data in forecasting and planning initiatives

Indicator categories

Indicators from Prevedere's Global Intelligence Cloud become the ingredients for econometric prediction models, and how organizations incorporate external uncertainty into strategy and planning.

Contact us
